ROOFING COLLECTION

Handcrafted Clay Roof Tiles

Roofing with real character.

Our handcrafted clay roof tiles add an authentic character and a timeless aesthetic to any project. Each one is carefully shaped by expert tilers utilising traditional methods and high-quality natural clays. These tiles achieve a distinctive, weathered appearance that retains the charm of historic structures while meeting modern performance standards.

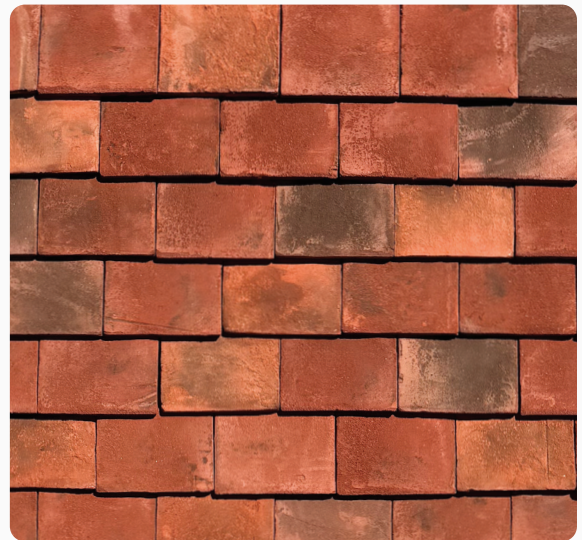

Each tile has unique variations in texture and colour that only genuine hand-moulding can achieve, and come in a range of six timeless colours that look established from day one and are built to keep their character and charm for decades.

Size	265 x 165mm

Size ▪ 300 x 230mm Min. Roof Pitch ▪ 35° Unit Weight ▪ 3.00kg

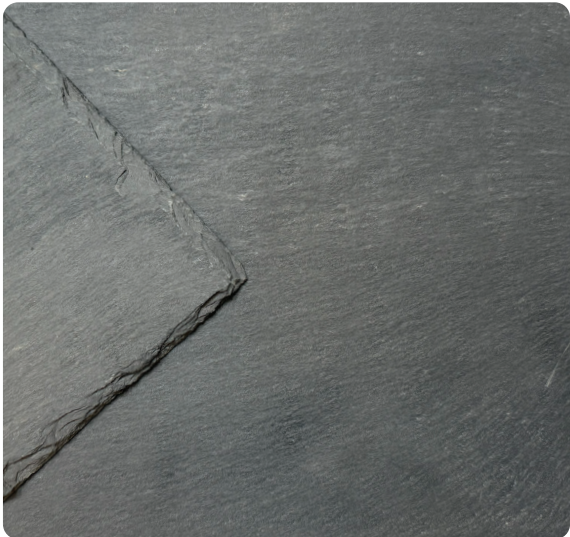

Natural Slate

For a statement roof that lasts a lifetime.

Natural slate is prized for its beautiful aesthetics, colour depth and strength. It is a low-maintenance product, dense and with a low water absorption rate, making it highly resistant to moss and algae growth. As slate ages it develops a soft, natural patina, settling into its environment, making it a great choice for renovation and restorative work, as well as prestigious new builds.

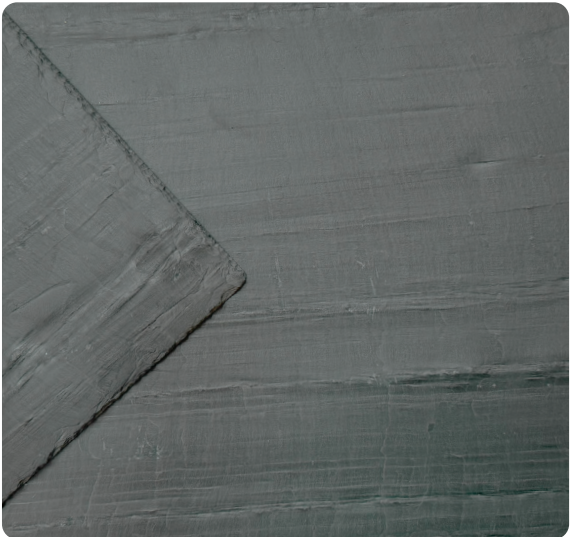

Built for maximum durability and weather resistance, its substantial weight and heavy texture offer a premium, established feel that only high-quality natural slate can provide. When properly installed, slate roofing can last well over a century, often outliving the building itself.

ELLESMERE

Carefully quarried and split, each slate has a smooth, consistent surface with subtle natural variation, creating a neat and uniform appearance across the roof. Lightweight and easy to handle this slate delivers a timeless look.

Size	500 x 250 x 5mm Nominal 500 x 375 x 5mm Nominal
Unit Weight	1.6kg 1.8kg
Min. Headlap	100mm
Coverage	20 per m ²
